Proszę przeczytać i zrozumieć wszystkie wskazówki, przed rozpoczęciem instalacji oprawy oświetleniowej. Zachowaj te instrukcje do przyszłego użytku.

220-240V
50-60Hz

It is essential to create an effective drainage (sand gravel type 160 x 200 mm and drainage tube) in order to prevent water accumulation at the bottom of installation groove. Proper Drainage should allow absorption of 5 liters of water for 8 minutes.

*for model with GU10 lamp holder only; **for model with built-in LED light source only.

*for model with GU10 lamp holder only; **for model with built-in LED light source only.

IMPORTANT INFORMATION FOR CORRECT DISPOSAL OF THE PRODUCT IN ACCORDANCE WITH EC DIRECTIVE 2002/96/EC.

At the end of its working life, the product must not be disposed of as urban waste. It must be taken to a special local authority differentiated waste collection centre or to a dealer providing this service.

Disposing of a household appliance separately avoids possible negative consequences for the environment and health, deriving from inappropriate disposal and enables the constituent materials to be recovered to obtain significant savings in energy and resources. As a reminder of the need to dispose of household appliances separately, the product is marked with a crossed-out wheeled dustbin.
