

CUTTING TOOL S-9000/T • 9014784

Product:	Cutting tool S-9000/T
Order code:	9014784
Family:	Track system parts
Product group:	Track system and parts

GENERAL DATA

Description:	Tracks are provided with the copper conductors already recessed, for compliance with the relevant safety standard. If it is necessary to shorten the track during installation, after the cut it is necessary to use the cutting tool S-9000/T to recess conductors (L1-L2-L3-N) at least 5mm so that the correct air, surface and electrical distances are respected
